- E. SESSION SUMMARY:

-----Target personality physically emerged as a curly-haired female that was AOL-ed as a young African female. What finally emerged was the representation of a young 25-30 year-old female somehow associated with research and medicine as a member of a peace corps-type organization. Jungles and wilderness remained associated with the target. Se sketched rendition a Enclosure 1. Efforts to determine other dominant features resulted in what appeared to be a high hat along with some of heavy fury clawed animal. See Enclosure 2. Attempts to determine additional features resulted in an undecipherable sketch of some animal or weather suit. See Enclosure 3. The issue of energetics/dynamics was addressed and resulted in the sketch of what was perceived as some sort of bolo knife. See Enclosure 4. Attempts to geographically locate the individual resulted in a sketch that felt like Botswana or South Africa. See Enclosure 5. Attempts to surface phonetics surfaced the words "Senaca/Senaga/Senegal."
